Professional Summary

Software Engineer with a frontend focus and 4+ years of experience building scalable enterprise web applications using React and Redux. Experienced in collaborating with cross-functional teams to deliver user-friendly, high-quality products.

Technical Skills

Languages: JavaScript, Python, C, C++

Frontend: React.js, Redux, HTML5, CSS3, Primereact, d3.js, Axios, React Bootstrap

Backend: Node.js, MongoDB, SQL

Tools: Git, Jest, REST APIs, Signoz, Grafana, Vite

Education

International Institute of Information Technology, Hyderabad

August 2014 - December 2021

B.Tech in Computer Science & MS by Research in Computational Natural Sciences

CGPA: 7.66/10

Work Experience

Kore.ai

Hyderabad

Senior Software Engineer

March 2023– Present

- Developed multi-tenant account switching for an enterprise SaaS platform (React.js, Redux, REST APIs), enabling seamless SSO/OIDC-based authentication across tenants; debugged and resolved critical login redirect failures and UI regression issues, improving authentication reliability.
- Improved employee engagement module performance through unit test coverage, Bitbucket Pipelines CI/CD integration, and code optimization, raising Chrome Lighthouse scores.
- Led development of a custom SQL editor (Quill.js, Highlight.js) for the Analytics service, enabling users to refine AI-generated SQL queries.
- Diagnosed and resolved production-level issues for enterprise clients using Kubernetes Lens and Signoz observability tools.

Mirelz Inc

Hyderabad

Software Development Engineer

February 2022 – February 2023

- Optimized website loading times through image compression and lazy loading techniques, directly improving user engagement metrics.
- Developed interactive data visualizations using d3.js, including bar graphs and line charts, to analyze user engagement metrics across customer platform dashboards.
- Designed and integrated infinite scrolling and pagination for smooth and efficient data navigation.
- Integrated calendar widgets and improved search functionality with debouncing for more efficient record filtering.
- Enhanced user interaction with interactive elements like toast messages, loading animations, modal dialogs, and accordions.

Certifications

CCDSAP Foundation — CodeChef Certified Data Structures & Algorithms Programme

November 2019

Awards and Recognitions

Kore.ai: Awarded Spotlight Award, July 2023, July 2024, & August 2025 recognizing exceptional project impact.

IIT Hyderabad: Earned Dean's Merit List Award for the Spring 2018 semester as one of the top performers.

JEE Main 2014: Scored 99.7 percentile, placing in the top 0.3% of 1.4 million participants.
